

OUR HISTORY

The cornerstone of **Gummiwerk KRAIBURG** was **established in 1947**, marking the beginning of what is now known as the **KRAIBURG Group**.

Gummiwerk KRAIBURG is an autonomous part of this family-owned company.

Our more than 400 employees represent more than 75 years of expertise in rubber and silicone applications for a wide range of industries.

SUSTAINABILITY

Sustainability is deeply rooted in **KRAIBURG's** business activities, with the **aim of continuously reducing raw material consumption through process optimization**. This principle guides us in the redesign and modernization of buildings and machinery, as well as in the manufacture and processing of our customers' products.

Gummiwerk KRAIBURG is aware of its corporate and social responsibilities towards employees, customers, business partners and the general public. We believe that only by acting sustainably can we ensure our future viability.

Gummiwerk KRAIBURG:
We care.

FUTURE AT GUMMIWERK KRAIBURG

Our highly qualified and dedicated employees are an essential part of our success.

Our organizational and management structure encourages independent thinking and action. The combination of individual expertise and creativity, the courage to pursue unconventional ideas and extensive practical experience enables us to make well-founded decisions together.

People have always played a major role in our family business. Many of our employees have been with us for more than 10, 20 or even 30 years. This means that our clients benefit from highly motivated and experienced people who have accompanied them through many projects over the years.

- ISO 50001:2018 (Energy Management System)

ABOUT US

With years of experience and a dedication to innovation, we are able to identify future requirements and convert them into the appropriate materials. We are thus continuously developing our skills and portfolio.

Our aim is to achieve the ideal synergy between recipe, raw materials and the specific requirements of our customers. Whether injection molding, extrusion or compression molding, we develop specialized compounds for each specific application.

Our database encompasses around 100,000 polymer compounds, drawing from over 75 years of expertise and covering the full range of polymers.

Our 10,000-square-foot facility is equipped with state-of-the-art technology, including: high-capacity internal mixers, roller-head line, calenders, extruders, strainer systems and pelletizers.

AREAS OF APPLICATION

Our Gummiwerk KRAIBURG compounds are processed into a wide range of end products in a variety of industries.

We have extensive experience, specialized expertise and highly qualified contact persons for our customers, particularly in the following industries:

Rubber and silicone compounds for:

- **Systems and components for high-end industries:** consumer goods, chemicals, electrical & electronic and construction.
- **Mobility:** automotive, railway, aerospace and marine.
- **Industries with specialized technical requirements:** water & power, paper & printing, food and medical technology.
